

Sample Documentation

Pick two specific rocks that was returned by Apollo 12 and document these samples in one page. For your each sample, make sure to include the following in your summary:

1. Sample Number
2. Describe where the sample was collected. Be as specific as possible.
3. What does the sample look like (size, shape, color).
4. What type of rock is the sample (basalt, breccia, etc.)
5. How old is the sample (if it was determined).
6. (Extra Credit) - Describe how the sample differs (age and chemical composition) from samples collected by Apollo 11.

Due: Tue Feb 5 in class (−2% for every hour late)
